

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

30 Day Public Notice Report

- Application # : FW-24005
- Stream : West Fork White River
- Applicant : Veolia Water Indianapolis
Kris Rubin, PE
1220 Waterway Boulevard
Indianapolis, IN 46202-1220
- Description : Veolia Water Indianapolis, is planning to construct a new public water supply wellfield adjacent to West Fork White River along the Johnson-Morgan County line. The wellfield will provide additional supply and capacity for the Indianapolis Water System. The proposed wellfield will consist of up to nine (9) new production wells, spaced throughout a 500-acre tract of land. The production wells will consist of a 26-inch diameter well casing extended a minimum of 3-feet above the 100-year flood elevation. Each well will be equipped with a platform for routine maintenance of the well, which will be erected at the top of the casing (minimum of 3-feet above the 100-year flood elevation). Each well will also include a 12-inch diameter discharge line, extending from the well casing and pump head (above the platform) to a depth of 4-feet below existing grade. Excavation for well and discharge piping construction will be restored to predisturbance ground contours following construction. Details of the project are contained in information received electronically at the Division of Water on September 19, 2006.
- Location : The project is located along the west bank of the West Fork White River, beginning approximately 1.2 miles south of the northern Morgan County line, and continuing south along West Fork White River for approximately 1.7 miles, Weaverly, Madison-White River Townships, Morgan-Johnson Counties, Indiana at Weaverly, Madison Township, Morgan County Section 36, T 14N, R 2E, Mooresville East Quadrangle Quad Code: 3908653

Lake : Waldron Lake

Applicant : West Lakes Conservation Inc
Dave Wick
0781 East Willow Lane
Wawaka, IN 46794-9661

Description : An approximate 700' by 50' area of an existing channel will be restored to its original condition by removing a maximum of 700' of debris from the lakebed. The dredging will be performed by hydraulic pumping. The excavated material will be transported to an upland detention area where it will be dewatered before being transported to an offsite disposal area. Adequate detention time will be provided to allow suspended sediments to settle out of the decanted water before returning the water to the lake. Specific project information will be added to the description as the application is further reviewed. Details of the project are contained in information and plans received at the Division of Water on August 31, 2006.
